payment of the second instalment to the members of the bond syndicate for the capital originally subscribed to carry on the operations of the syndicate, rather than to any increase in the movement of currency to this centre. Loans increased \$299,100; deposits increased, \$3,546,000 of all the changes was an increase of \$2,326,100 in surplus reserve, which now stands at \$41,266,-875, against \$38,940,775 last week, \$67,806,650 in the corresponding week last year, and a deficit of \$12,045,800 in 1893.

The following are the comparative statements of August 10 and August 17:

The following shows the relation between the total reserve and the total deposits of the respec-

Total reserve ...\$182,360,100 \$185,572,700 Inc. \$3,212,600 Reserve required against deposits, 143,419,325 144,305,825 Inc. Surplus \$38,940,775 \$41,260,875 Inc. \$2,326,100

The Clearing House statement for the day was as follows: Exchanges, \$78,601,599; balances, \$6,-557,550 For the week: Exchanges, \$498,354,420; balances, \$38,075,434.

The total exchanges of all the bank clearing houses of the United States for the week ending to-day have been \$906,959,697, against \$900,848,092 last week and \$809,374,466 the corresponding week last year.

ON THE STOCK EXCHANGE. Total transactions in stocks in two hours of trading to-day amounted to only 60,532 shares, of which American Tobacco contributed over 21,000 shares. The market was devoid of any interesting features, and the greater part of the trading, representing covering of short contracts, caused advances ranging from 1/4 to 11/4 per cent. There was further liquidation in American Tobacco, which lost in the day over 2 per cent and made a net decline of 3 per cent from last night's closing price. The report has been current durclosing price. The report has been current during the week that the American Tobacco Company has aroused the enmity of the large plug tobacco manufacturers of this country by its action in going into that line of the tobacco business itself, and that it will be punished by interests more powerful and rich than the American Tobacco Company. Too much faith should not be placed, however, in reports of a formidable opposition to the trust, for the methods of the manipulators of the trust shares on the Stock Exchange are all the same, and the present talk of a fight against American Tobacco is most probably circulated in the interests of the insiders, who believe the time has come to make a turn in Tobacco similar to that made in Sugar Refining at frequent intervals. The Granger shares were firm and the general railway list was strong. Lake Erie and Western and Manhattan Elevated both declined again, the last named closing at a net loss of 1% per cent, making a loss for yesterday and to-day of nearly 5 per cent. The earnings of the Manhattan Company for the year ended June 30 reflected the increase in the competition by the cable roads, and perhaps the officers of the company will see in the returns for the year an object lesson of sufficient clearness to enforce upon them the need of reforms in the company's service. Chicago Gas advanced to-day on buying credited to Benedict interests, and next to Tobacco it was the heaviest stock dealt in on the list. ing the week that the American Tobacco Com-

need of reforms in the company's service. Chicago Gas advanced to-day on buying credited to Benedict interests, and next to Tobacco it was the heaviest stock dealt in on the list.

The small amount of gold which was sent abroad to-day has caused an easier feeling over the foreign exchange natuation, and, though it is understood that a firm of bankers will be in the market next week for exchange to a large amount, it is possible that rates may ease sufficiently for the firm to take bills instead of sending gold. This firm is reported to want exchange against new Government 4s, which were sold abroad and recently resold in this country. At the end of the week the supply of commercial bills shows some improvement, and next week there will be more security bills in the market, against a sale of \$1,500,000 Northern Pacific receiver's certificates in Europe, and there are indications pointing toward several large sales in the lear future of American securities abroad. Rates for actual business in the foreign exchange narket closed the week at quotations which ruled all the week. In considering the gold export movement it is well to refer to the trade figures for Jui, iscued by the Bureau of Statistics. The merchandise balance against this country as shown by these figures is \$13,129,000, including silver, and the total exports for July represent \$56,600,000, against imports of \$73,469,000, or an excess of imports over exports of \$16,889,000.
